Sea-Kayaking in the Gulf Islands

Day trip adventure with Ferry, Sea-kayak & Float- plane

Protected from the open ocean, the Gulf Islands are a sea-kayaking paradise. Marine life here is among the most diverse in the world's temperate waters. Rocky reefs, lush kelp beds and protected bays are home to a myriad of marine invertebrates, fish, and sea mammals.

Seals, river otters and sea lions are often observed. Sightings of whales, harbour seals and Dall's porpoise are rare although they too inhabit these waters. Colonies of gulls and cormorants are scattered throughout the area, which also contains several breeding sites for bald eagles, oystercatchers and pigeon guillemots.

Discover this rich eco system on a sea kayaking adventure along the shores and remote beaches.

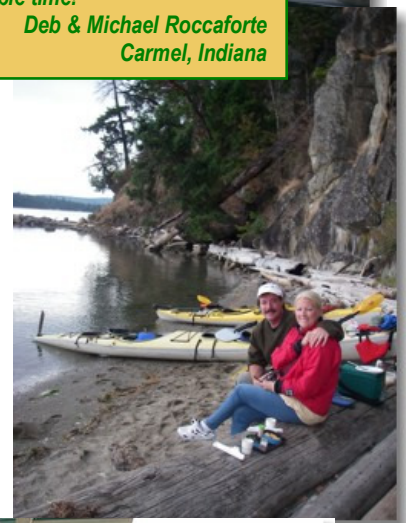

We had an incredible time!
Deb & Michael Roccaforte
Carmel, Indiana

Your adventure begins with a ferry ride to Galiano Island where you embark in comfortable two-seater sea kayaks. Qualified and knowledgeable guides will interpret the wildlife around you and make sure your trip is safe and memorable.

A gourmet salmon barbeque lunch is served on a remote beach.

Your adventure ends with a floatplane ride into the sunset back to Vancouver.

Experience or fitness are not required for this trip.
