Whistler Zip Line Adventure

It almost feels like flying

Description Zip Lining is an awesome way to experience Whistler. It combines the exhilarating feeling of soaring through the air with the breathtaking beauty of the mountains and the Whistler Valley. Our unique system allows two guests to ride side-by-side, each on their own cable during a scenic three-hour tour. The excursion includes five dual zip-lines connected to each other by a network of trails and boardwalks. The largest zip-line is over 1500 ft in length, 400 ft above the ground and offers a 200 ft elevation drop from launch to landing, reaching speeds of up to 100 km/hr (60 mph).

Dates daily throughout the year

days or less - 100 % cancellation fee

TreeTrek Tour –
This tour is an excellent alternative for all those who find Zip Trekking too challenging. Tree Trekking combines a thrilling journey through the forest canopy with an educational message of environmental responsibility and sustainability. The TreeTrek Ecotour follows trails and aerial stairways up to multiple suspension bridges over 15 stories above the raging waters of Fitzsimmons Creek between Whistler & Blackcomb Mountains. Imagine viewing the creek, the wilderness and the wildlife from platforms built high in the treetops.
This is a 1.5 hour guided tour. For ages 6 and older. Babies carried in front packs are permitted.
